WORK EXPERIENCE

IT & SAP Manager – Custom S.p.A., FONTEVIVO (PR) Period: January 2025 – Today

- Managing and coordinating internal and external resources;
- Define the IT strategy of medium / long term for the application areas and infrastructure in terms of
 - o proactive maintenance of infrastructure;
 - o preparation of the budget with new solutions or with monitoring - objectives also cost-saving;
 - o project management of business projects (design assumptions, estimates costs);
- ERP implementation and vertical cross applications;
- Call handling (ticket) for assistance;
- Monitoring of IT systems and SLA (KPI);
- Provision of internal training for all company employees on the use of internal IT resources;
- Management and maintenance of the entire datacenter.

Group ICT Manager – Brovedani Group S.p.A., S. VITO al TAGLIAMENTO (PN) Period: January 2024 – June 2024

- Managing and coordinating internal and external resources;
- Define the IT strategy of medium / long term for the application areas and infrastructure in terms of
 - o proactive maintenance of infrastructure;
 - o preparation of the budget with new solutions or with monitoring - objectives also cost-saving;
 - o project management of business projects (design assumptions, estimates costs);
- ERP implementation and vertical cross applications;
- Call handling (ticket) for assistance;
- Monitoring of IT systems and SLA (KPI);
- Provision of internal training for all company employees on the use of internal IT resources;
- Management and maintenance of the entire datacenter.

Reasons for the change: the company preferred to avoid application and technological updates, which in its opinion would have too much impact in the current reality.

ICT Manager – A.L.F. Uno S.p.A., FRANCONIGO di GAIARINE (TV) Period: July 2023 – December 2023

- Managing and coordinating internal and external resources;
- Define the IT strategy of medium / long term for the application areas and infrastructure in terms of
 - o proactive maintenance of infrastructure;
 - o preparation of the budget with new solutions or with monitoring - objectives also cost-saving;
 - o project management of business projects (design assumptions, estimates costs);
- ERP implementation and vertical cross applications;
- Call handling (ticket) for assistance;
- Monitoring of IT systems and SLA (KPI);
- Provision of internal training for all company employees on the use of internal IT resources;
- Management and maintenance of the entire datacenter.

Reasons for the change: the company preferred to avoid application and technological updates, which in its opinion would have too much impact in the current reality.

ICT Manager – Iveco Defence Vehicles S.p.A., BOLZANO (BZ) Period: January 2021 – June 2023

- Managing and coordinating internal and external resources;
- Define the IT strategy of medium / long term for the application areas and infrastructure in terms of
 - o proactive maintenance of infrastructure;
 - o preparation of the budget with new solutions or with monitoring - objectives also cost-saving;
 - o project management of business projects (design assumptions, estimates costs);
- Manager of plant automation and project manager for the developing projects;
- ERP implementation and vertical cross applications;
- Call handling (ticket) for assistance;
- Monitoring of IT systems and SLA (KPI);
- Provision of internal training for all company employees on the use of internal IT resources;
- Management and maintenance of the entire datacenter.

Reasons for the change: purely logistical aspects and effort on rent and living expenses prevented the continuation of the experience in reality.

ICT Manager - Marcegaglia Palini & Bertoli S.p.A., SAN GIORGIO di NOGARO (UD) Period: June 2010 – December 2020

- Managing and coordinating internal and external resources;
- Define the IT strategy of medium / long term for the application areas and infrastructure in terms of
 - o proactive maintenance of infrastructure;
 - o preparation of the budget with new solutions or with monitoring - objectives also cost-saving;
 - o project management of business projects (design assumptions, estimates costs);
- Manager of plant automation and project manager for the developing projects of rolling mill plant and others parts strictly connected;
- ERP implementation and vertical cross applications;
- Call handling (ticket) for assistance;
- Monitoring of IT systems and SLA (KPI);
- Provision of internal training for all company employees on the use of internal IT resources;
- Management and maintenance of the entire datacenter.

Reasons for the change: the acquisition of the company by the Marcegaglia Group led to the complete centralization of the information systems.

Responsabile Pianificazione e Service Desk – Sinthera S.r.l., BUTTRIO (UD) Period: August 2014 – January 2015

- Managing internal resources to carry out customers projects/technical assistance
- Call management (ticket) for assistance in terms of figures involved in that guide the resolution of the problem.

Responsabile Gestione Sistemi – Stefanel S.p.A., PONTE di PIAVE (TV) Period: April 2008 – June 2010

- Managing and coordinating internal and external resources;
- Define the IT strategy of medium / long term for the infrastructure areas in terms of :
 - o proactive maintenance of infrastructure;
 - o preparation of the budget with new solutions or with monitoring - objectives also cost-saving;
 - o project management of business projects (design assumptions, estimates costs);
- Call handling (ticket) for assistance;
- Management and maintenance of the entire datacenter room.

Reasons for the change: the company situation unfortunately prevented the continuation of the experience, subsequently leading the company itself to its sale.

Responsabile Infrastrutture – Ferriere Nord S.p.A., OSOPPO (UD) Period: February 1999 – April 2008

- Managing and coordinating internal and external resources;
- Define the IT strategy of medium / long term for the infrastructure areas in terms of :
 - o proactive maintenance of infrastructure;
 - o preparation of the budget with new solutions or with monitoring - objectives also cost-saving;
 - o project management of business projects (design assumptions, estimates costs);
- Call handling (ticket) for assistance in terms of figures involved in that guide the resolution problem;
- Provision of internal training for all company employees on the use of internal IT resources;
- Management and maintenance of the entire datacenter room.

Reasons for the change: the company opted to choose the new manager and select the then application manager.

Excellent organizational and management skills

Leadership consolidated over time and recognized thanks to the technical skills and the human qualities

Problem solving skills

Good organizational skills and consolidated coordination

Depth knowledge of information flows and business process.

HOBBIES

In my free time I devote to creative hobbies covering the manual (model railway) or in sports activities aimed at training of young players. They are also fond of stamp and numismatic collecting.
