### Profile

To a long working experience as an electronic engineer in structured companies, I have always combined that of youth football sports coach (with UEFA "B" certification). I decided to deepen and certify my skills in this second area, which I would like to make prevalent, with a three-year degree in Motor Sciences also oriented to the management of sports facilities. I am looking for opportunities in companies that can enhance my know-how in the youth sport sector (but also to proposals related to the female one) in which I have been moving for years with now consolidated competence and natural predisposition.
